

# 5. DAIRA ART GALLERY

*Abstract art uses visual language of shape, form, colour and line to create a composition which may exist with a degree of independence from visual references in the world. The sources from which individual artists drew their theoretical arguments were diverse, and reflected the social and intellectual preoccupations in all areas of western culture at that time.*

*Abstract art, non-objective art, and non-representational art are closely related terms. They are similar, but perhaps not of identical meaning. Abstraction indicates a departure from reality in depiction of imagery in the art. This departure from accurate representation can be slight, partial, or complete. Abstraction exists along a continuum.*

*From UCW college, we the NSS volunteers i.e., 20 members went to DAIRA ART GALLERY where all the abstract art is displayed on the walls which were good looking and difficult to understand. This art depicts a lot of information in a magical way. The paintings which were displayed were of pale in colour. The painter used so light colours of own creation. There we all had a task that we had to prepare abstract colours by mixing different colours. Everyone over there got different that one does not match the other. We all really had a good time and we came to know difficulty in that art when we experienced.*
